### **California Our Golden State**

As Californians we all know what this beautiful state has to offer. It's the land of sunshine, surfing, movie stars, good food and exciting nightlife. All of that is true but that's just skimming the surface of what this amazing state is all about.

Here are some fun and interesting

facts about Cali that you may or may not know.

With a population of 39.5 million people, California is the most populous US state.

Inventions from California include the hula-hoop, the Egg McMuffin, Barbie, WD-40, California roll, Cobb salad, the Shirley Temple (alcoholic beverage), and the nicotine patch.

California is the birthplace of the film industry, hippy counterculture, the Internet, the personal computer, fast food, and beach culture.

California is the third largest state, after Alaska and Texas.

California is about the same size as France, Spain, and Sweden combined, at 1,040 miles long and 560 miles wide.

Humans settled in California as early as 19,000 years ago.

During the California Gold Rush, San Francisco grew from a population of 200 to 36,000.

California was originally called the Grizzly Bear State. However, grizzly bears were hunted to extinction in California, so it's now called the Golden State.

### California Our Golden State (Cont.)

California produces nearly all of the United States' almonds, celery, figs, kiwi fruits, walnuts, and much more. The state is the world's fifth-largest producer of food.

Fortune cookies were not invented in Asia; they were invented in California.

At almost 3 million acres, San Bernardino County is the largest county in the United States.

The highest point in California is Mount Whitney, which is 14,494 feet above sea level.

California has hosted both the Winter and Summer Olympics, the only state to do so.

California is home to the oldest and tallest trees on Earth.

The entire coastline of California is an official national monument named "California Coastal National Monument."

The name California comes from a book written about 500 years ago. The book was about an island named California that was full of gold.

Mexico surrendered California to the United States in 1848, after the Mexican-American War. California was annexed as a free, non-slave state in the Compromise of 1850.

### October Quote:

*There are seven days in a week and SOMEDAY is not one of them.*
